

Chip Resistor and Termination Selection Guide

Spectrum Control offers a wide selection of resistors and terminations that are designed to meet the increasing demands for high frequency and high power. This chart can offer a good starting point to help select the right product for your application, but we are always expanding our capabilities based on customer demand.

Don't see a product that meets your needs? Contract us and we can work with you to find a solution, from a deep dive of our standard products to a custom design.
